

Summary

AI Robotics Engineer with an M.S. in Electrical Engineering, focused on ROS 2, TM5S, Isaac Sim / Isaac Lab, and Isaac GR00T for robot control and sim-to-real systems. Experienced in end-to-end integration across perception, data workflows, policy inference, and real-robot validation.

Key Results

3-4x automated data-collection throughput	70% → 90% cable-insertion success in 10 trials
--	---

Experience

- AMTRAN TECHNOLOGY CO., LTD. | AI Robotics EngineerMay 2025 - Present | New Taipei, Taiwan
- Built ROS 2 control and simulation environments connecting TM5S, NVIDIA Isaac Sim / Isaac Lab, MoveIt 2, and cuMotion for motion planning, collision handling, pick-and-place, and cable tasks.
 - Delivered Isaac GR00T N1.7 data conversion, model training, policy inference, and TM5S real-robot testing, integrating camera data, robot state / action, policy services, and robot commands.
 - Integrated RealSense, YOLO OBB, AprilTag, and OpenCV with Quest 2 teleoperation and imitation-learning recording; automated data collection reached 3-4x manual operation in the same time window.
 - Owned robotics software from requirements and architecture through Docker deployment, testing, on-site integration, and maintenance; cable-insertion success improved from 70% to 90% in a 10-trial test.
- ISCOM | Software Engineer InternFeb 2022 - Jun 2022 | Kaohsiung, Taiwan
- Participated in backend API development, frontend integration, and web feature implementation using C#, ASP.NET MVC, JavaScript, jQuery, MS SQL, and Git.

Skills

Robot Control	ROS 2, TM5S, NVIDIA Isaac Sim / Lab, MoveIt 2, cuMotion, Docker
VLA & Robot Learning	Isaac GR00T N1.7, VLA, Policy Inference, Imitation Learning, Robot State / Action
Perception & Integration	RealSense, YOLO OBB, AprilTag, OpenCV, Visual Servoing, Python, C++, Git

Education & Honors

- M.S. in Electrical Engineering, National Taiwan Normal University | Sep 2022 - Jul 2024
- B.S. in Computer and Communication, National Pingtung University | Sep 2018 - Jun 2022
- Honors: RHCSA; FIRA Roboworld Cup First Place; National Technical Creativity Competition Third Place
